SECTION 1

Getting Started

1.1 · Logging in

Go to app.dirxctional.com and log in. First time? You'll get an email invite — click it to set your password. No invite yet? Ask your office manager, or email support@dirxctional.com.

A screenshot of a web browser window displaying the Dirxctional login page. The browser's address bar is empty. The page features the Dirxctional logo at the top center. Below the logo, a white card contains the text "Welcome back" and "Sign in to your clinic workspace". There are two input fields: "Email" with the value "rosa.kelly@mercywest.org" and "Password" with masked characters. A "Forgot password?" link is positioned to the right of the password field. A teal "Log In" button is at the bottom of the card, with a mouse cursor hovering over it. Below the button, a message reads: "First time here? Use your email invite to set a password.".

Sign in to reach your clinic workspace.

1.2 · Your dashboard

After logging in you land on your clinic dashboard — your home base. It shows recent referrals, quick stats, and the sidebar you'll use to get around.

Your clinic dashboard — quick stats and recent referrals.

SECTION 2

Sending a Referral

Every referral goes through one simple four-step wizard. Most take under five minutes.

In the sidebar, click **New Referral** to open the wizard, then move through the four steps below.

1

Select Patient

Search for an existing patient by name, DOB, or phone — or add a new one right inside the wizard.

The screenshot shows the Dirxctional web application interface. On the left is a dark blue sidebar with navigation links: Dashboard, My Referrals (with a '12' badge), New Referral (highlighted with a teal border), Patients, and Services. At the bottom of the sidebar is a user profile for Rosa Kelly, RN, Referral Coordinator. The main content area is titled 'New Referral' and shows a progress bar for 'Step 1 of 4: Select Patient' which is 25% complete. Below the progress bar are four tabs: '01 Select Patient' (active), '02 Referral Method', '03 Choose Pharmacy', and '04 Review & Submit'. The 'Select Patient' step contains a search bar with the placeholder 'Search by name, DOB, or phone...' and an 'Add New Patient' button. Below the search bar is a large dashed box with a person icon and the text 'Search above or add a new patient to continue'. At the bottom of the wizard are 'Cancel' and 'Next: Referral Method' buttons.

Step 1 of 4 – find the patient, or add one on the spot.

2

Referral Method

Drag your files into the upload box — the AI reads them automatically (enrollment form, chart notes, insurance card). Don't worry about sorting; upload whatever the provider gave you. Prefer to type it in? Switch to **Manual entry**.

✦ **Upload anything** — our system sorts and reads it for you.

Step 2 of 4 — the smart dropzone accepts any document.

3

Choose Pharmacy

The wizard defaults to your clinic's preferred specialty pharmacy. Change it only if this referral needs a different one.

The screenshot shows the Dirxctional web application interface for creating a new referral. The left sidebar is dark blue with white text and icons for navigation: Dashboard, My Referrals (with a red badge showing '12'), New Referral (highlighted with a teal bar), Patients, and Services. The top header is light gray with the Dirxctional logo, the breadcrumb 'Referrals → New Referral', and notification and settings icons. The main content area is white. At the top, it says 'New Referral' and 'Quick 4-step process to submit a referral'. Below this is a progress bar for 'Step 3 of 4: Choose Pharmacy' which is 75% complete. The progress bar has four steps: '01 Select Patient' (checked), '02 Referral Method' (checked), '03 Choose Pharmacy' (active, highlighted with a teal border), and '04 Review & Submit'. Below the progress bar, the patient's information is displayed: 'Margaret Chen', 'DOB: Apr 12, 1958', and '(214) 555-0142'. The main section is titled 'STEP 3 OF 4 Select pharmacy for this referral' with the instruction 'Defaults to your clinic's preferred pharmacy. Change if this referral needs a different one.' There are three radio button options: 'Lone Star Specialty Pharmacy — Dallas' (selected, with a teal border and a 'Default' label), 'Mercy West Infusion Pharmacy', and 'Lone Star Specialty Rx'. Each option includes its address and phone number. At the bottom of the main section, it says 'Default pharmacy for your clinic — change if needed.' At the bottom of the form, there are two buttons: '← Back' and 'Continue to Review →'.

4

Review & Submit

Check the details and the pharmacy, tick the confirmation box, then click **Submit**. Our team takes it from here.

The screenshot displays the 'New Referral' interface in the Dirxctional system, specifically the 'Step 4 of 4: Review & Submit' stage. The left sidebar shows the navigation menu with 'New Referral' selected. The main content area includes a progress bar at 100% and a summary of the previous steps: 'Select Patient', 'Referral Method', and 'Choose Pharmacy'. The patient information section shows 'Margaret Chen' with a date of birth of 'Apr 12, 1958'. The pharmacy section lists 'Lone Star Specialty Pharmacy — Dallas'. The insurance section states that details will be extracted from uploaded documents. The documents section shows two files: 'referral-form-rx.pdf (1.2 MB)' and 'insurance-card-front.jpg (0.4 MB)'. A confirmation checkbox is checked, and the 'Submit Referral' button is highlighted with a mouse cursor.

Step 4 of 4 – confirm, then submit. We take it from here.

After you submit: tracking progress

Watch your referral under **My Referrals** — every referral carries a colored status badge, and you'll get email notifications when the status changes. See **Section 4** for what each badge means.

The screenshot shows the 'My Referrals' page in the Dirxctional application. The left sidebar contains navigation links: Dashboard, My Referrals (16), New Referral, Patients, and Services. The main content area is titled 'My Referrals' and includes a '+ New Referral' button. Below the title, there are filters for 'All 16', 'In Review 8', 'Needs Attention 2', and 'Sent 3'. A search bar is present with the placeholder 'Search by patient, drug, or ID...'. The main table lists 10 referrals with columns for ID, Patient Name, Drug, Status, and PA Status. The status badges are: Processing (blue), Approved (green), Rejected (red), In Review (orange), and Sent to Pharmacy (teal). The PA status is either Pending, Approved, Denied, or blank. At the bottom, there is a pagination bar showing 'Showing 1-10 of 16 referrals' and '5 per page'. The user's name and role, 'Rosa Kelly, RN Referral Coordinator', are displayed in the bottom left corner.

ID	PATIENT NAME	DRUG	STATUS	PA STATUS

Track every referral and its status in one place.

SECTION 3

Common Questions

3.1 · Can I add a patient without starting a referral?

Yes. In the sidebar go to **Patients** → **Add Patient**, fill the form, and click **Create Patient**. Only the patient's full name is required — everything else is optional.

Referral Coordinator

Status and PA Status, at a glance.

3.3 · How do I know if a Prior Authorization is needed?

Open the referral and look at the **Prior Authorization** card. It shows whether a PA is required, the current status, and — once approved — the expiry date. You don't submit PAs yourself; the Dirxctional team handles that.

The screenshot displays the Dirxctional web interface for a referral overview. The left sidebar shows navigation options: Dashboard, My Referrals (12), New Referral, Patients, and Services. The main content area is titled "My Referrals → REF-8842" and shows details for Robert Johnson's Dupixent (dupilumab) referral, created on Jun 12, 2026, by Rosa Kelly, RN. The status is "Sent to Pharmacy". A "Referral Sent" card indicates the referral has been sent to the pharmacy, with details for Lone Star Specialty Pharmacy in Dallas, TX. Below this is a progress bar showing the stages: Received, In Review, and Sent. The "Insurance" section shows a valid Commercial plan (Choice Plus PPO) with UnitedHealthcare as the payer. The "Prior Authorization" card, highlighted with a red border, shows that a PA is required (Yes), the status is "PA Approved", the PA Number is PA-2261188, and it expires on Dec 15, 2026. The PA is handled by Dirxctional.

The Prior Authorization card on the referral overview.

3.4 · How do I add a note?

Open the referral → **Notes** tab → type your message → **Send**. Both you and our team can read and reply, so the whole conversation stays attached to that referral.

A shared thread between your clinic and our team.

3.5 · A referral was rejected – what now?

Open it to see the reason, then upload the corrected documents and **resubmit**. We'll re-run the prior authorization the same day.

Robert Johnson Rejected REF-8842

Dupixent (dupilumab) · Created Jun 12, 2026 · by Rosa Kelly, RN

Print Export

Referral Needs Attention Rejected

Resolve the items below, then resubmit for review.

REJECTION REASON

Insurance card on file has expired. Upload a current copy of the front and back of the patient's insurance card, then resubmit.

WHAT'S NEEDED

- ☐ Current insurance card — front
- ☐ Current insurance card — back
- ☐ Verify 3 flagged fields (marked)

Flagged by Dirxctional · Jun 16, 2026

Fix this referral Edit details Upload documents

Overview Documents 7 History 6 Notes 3

The reason is spelled out – fix it, then resubmit.

3.6 · How do I see what was sent to the pharmacy?

On an approved or sent referral, use **Export** in the header to download the pharmacy-ready packet, or open the **Documents** tab to preview each file.

A "Sent to Pharmacy" referral, ready to export.

3.7 · The patient already has an approved PA – do I still upload PA docs?

No. Just send the enrollment form, chart notes, and insurance card. If the existing PA is still valid, we'll use it.

3.8 · The patient is on a bridge program – anything different?

Upload the manufacturer enrollment form as normal, and add a **Note** telling us they're on a bridge — that way we can send before the PA returns.

SECTION 4

Understanding Status

Every referral carries two badges — a **referral status** and a **PA status**. Here's exactly what each one means and what (if anything) you need to do.

• Uploaded • Processing • In Review • Approved • Sent • Rejected		
REFERRAL STATUS	WHAT IT MEANS	WHAT TO DO
• Uploaded	You've started the referral.	Keep uploading, then submit.
• Processing	The AI is reading your documents.	Wait 1–2 minutes.
• In Review	Our team is reviewing it.	Nothing — we've got it.
• Approved	Ready to send to the pharmacy.	Nothing.
• Sent	The pharmacy has it.	The patient will hear from them.
• Rejected	Something needs your attention.	Check the reason and resubmit.

Not Started In Progress Submitted Approved Denied		
PA STATUS	WHAT IT MEANS	
Not Started	No prior authorization has been opened yet.	
In Progress	Our team is working on it.	
Submitted	Sent to the insurance payer.	
Approved	Coverage approved.	
Denied	We'll reach out about next steps.	

SECTION 5
